The Hanson Plunge mixer is the top of the line heavy-duty mixer now recognized by many companies as the best mixer available to mix their products with absolute minimum of air entrapment.

Our Plunge mixers will mix dry mix materials, paints, glues, epoxies, 2 part combo mixes, urethanes, glazes, printing inks, fiberglass resins, plastic compounds, plaster, mortar, cements, foundry core mixes, molding sands, and asphalt sealers.

**Material:** Zinc-aluminum alloy, with heavier zinc content for durability and longer life. The head is cast, tumbled smooth with a no burr finish for easy clean up. Mixes 1/2 pint up to 55 gallons.

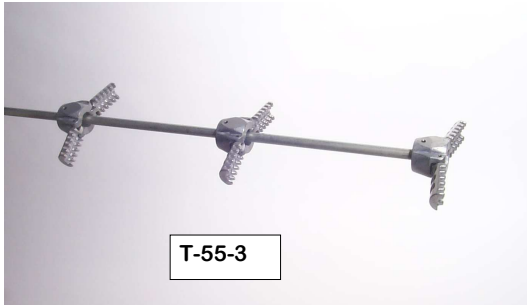

### 002B3 Barrel Mixer

This mixer is designed to fit into the bung hole of an ordinary 55 gallon drum. The 1/2" shaft size fits into many standard mixing drives. This mixer can be adjusted for depth in the fluid to aid in uniform mixing throughout the drum.

**Material:** Zinc Aluminum heads.

**002B4** Three mixing heads on 1/2" shaft 36" long.

### T-55 Swing-T Barrel Mixer

Mixes through the bung hole of a 55-gallon drum. When centrifugal force is applied the blades swing out to a diameter of 5 3/4" for maximum mixing capability. The mixing heads are stackable up to three units on one 36" shaft for easy adjustment in the fluid level.

**Material:** Zinc Aluminum head and blades, 1/2" steel plated shaft.

**T-55-1** 1 MIXING HEAD WITH SHAFT

**T-55-2** 2 MIXING HEADS WITH SHAFT

**T-55-3** 3 MIXING HEADS WITH SHAFT

**T-55-0** MIXING HEAD ONLY, NO SHAFT

### Plunge Mixer Kit

This kit contains the 001, 002, 003, 006 and the T-5 mixer. A price savings and you have a mixer for almost any job from 1 pint up to 5 gallons. Now available in box only.

**Kit-1**

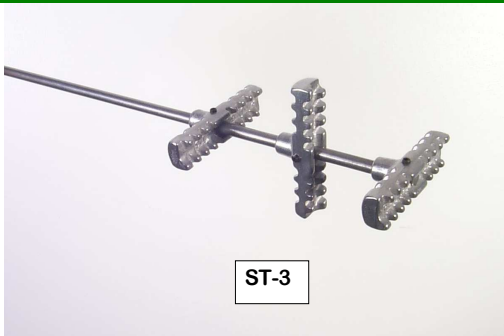

**T-5 Swing-T Mixer**

**Swing T-Mixer:** Many materials come in a sealed metal or plastic 5 gallon can which can be time consuming to open, by entering the pouring spout with the Swing-T you can mix with action that you couldn't obtain without removing the top. The Swing-T opens to a 5" mixing diameter when centrifugal force is applied. This mixer follows the tradition of the other Hanson Plunge mixer line, having teeth on the bottom for added mixing action and the ability to loosen material from the bottom of mixes without harming the container.

**Material:** Aluminum

**T-5** Mixing Head on shaft, 3/8" diameter 20" long.

### **ST-3**

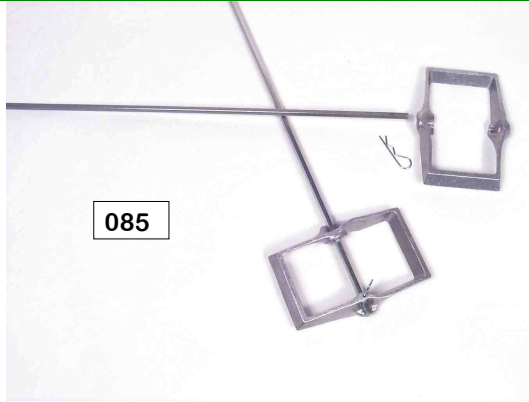

This mixer mixes in a quick hurricane action. Comes with 1, 2 or 3 mixing heads. For mixing in 5 gallon containers with fluid materials.

**Material:** Aluminum

**ST-1** 1-MIXING HEAD

**ST-2** 2-MIXING HEADS

**ST-3** 3-MIXING HEADS

**The Plunge 085 Mud Mixer:** This heavy-duty mixer is known as “The Mudders Dream”. It has a detachable blade design for easy clean up! The blade cutting design and angles move material quickly and allows the mixer to reach into the corners of your mixing containers easily for less product waste. The 085 was designed to mix paints, drywall mud, heavy paste and acoustic pre-mix, quickly and lump free. For 5 gallon containers.

**Material:** Aluminum

**085** Mixing Head on 24” hex shaft

**085LS** Mixing Head on 30” hex shaft.

### **PLUNGE 1 GALLON PAINT GUARD:**

A disposable plastic pouring spout that snaps on the top of a gallon can. It's tall enough to aid in mixing so splatter is not a problem. When pouring it helps control flow of material, plus it keeps the top of the can clean for easy resealing. Available in 25 packs or bulk packed. These are currently made in a clear material.

**PG-001** 25 pack Paint Guards

**PG-100** 100 Bulk pack Paint Guards

### **Party Pic**

Clean up the easy way with no bending. Pick up cans, bottles and even the smallest items with our fine tip. The Party Pic is made of durable aluminum tubing and plastic grip with a stainless steel spring. Good for long service in parks, golf courses, business lawns and around home.

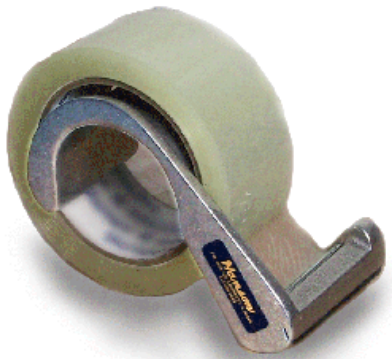

34" Long

**PIC-001** 1 pc.

**PIC-012** 12 pc.

### **The Hanson Lifetime Tape Dispenser**

Our cast aluminum tape dispenser offers a durable and quick alternative to the bulky and plastic dispensers. Holds any 2" tape with a 3" core diameter, even double coated masking tape can be separated from its' backing paper.

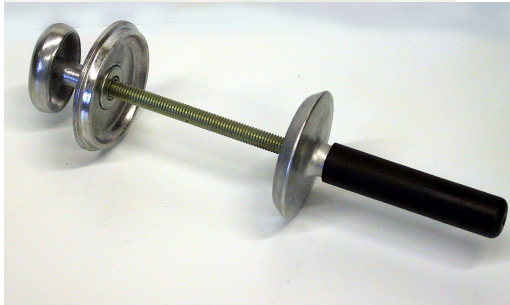

Dispenser **Model D-2**  
Mounted Dispenser **Model D-2M**  
Optional table mount  
Replacement blade

## Hanson Stretch Wrapper

Our stretch wrapper is one of the most durable available. The main body is one piece, cast aluminum construction. Lighter than much of the competition also. Available for 12", 15" and 18" shrink wrap with a 3" core.

**Model SW-3X12**

## Hand Stretch Wrapper

This holds 2" and 5" stretch wrap film with a 3" core, for wrapping smaller items. Very handy for rods, tubes and other hard to bundle items. Top handle adjusts the tension.

**Model SW-3X5**
